

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

February 7, 2000 LB 701

PRESIDENT MAURSTAD: Thank you, Senator Tyson. Senator Schrock, committee amendment. (AM0719, Legislative Journal page 938, First Session, 1999.)

SENATOR SCHROCK: Mr. Lieutenant Governor, members of the Legislature, as you know, there was a disagreement last Thursday and I think rather than take the body's time because I did go over what the committee am...I think I will let you pass over me at this time and go to Senator Coordsen.

PRESIDENT MAURSTAD: Okay, Senator Schrock. Senator Coordsen, a brief recap of your amendment to the committee amendment.

SENATOR COORDSEN: Well, thank you, Mr. President, for the invitation, but if I'm going to do that.

PRESIDENT MAURSTAD: Senator Coordsen, you're recognized...

SENATOR COORDSEN: This morning, early on, thanks to the efforts of Senator Schrock and others, the people who were concerned--Game and Parks Commission representatives, representatives of the Cattlemen, and the Nebraska Farm Bureau, and several interested senators--met in Senator Schrock's office, and Legal Counsel for Natural Resources Committee is, at this point in time, drafting an amendment to the bill, or to the committee amendments, or to the bill as it will be amended, that we will address on Select File, hopefully. So at this point in time, Mr. President, I would withdraw my amendment and encourage the members of the body to adopt the committee amendments and then the bill, and then we will be back with an amendment on Select File. Thank you, Mr. President.

PRESIDENT MAURSTAD: Without objection, the Coordsen amendment is withdrawn. For discussion on the committee amendments to LB 701, Senator Coordsen, your light is on, would you like...? Debate on the committee amendments to LB 701, Senator Schrock.

SENATOR SCHROCK: Just a quick review, Mr. Lieutenant Governor, members of the Legislature, the committee amendments on LB 701 say that the fence to be used on the state recreational trail will be a four-strand barbed wire fence, posts one rod apart.
